

Ph.D. in Applied Geology Proposed Program of Study Form Kent State University Department of Geology

Student Name: _____ Banner ID: _____

Student Signature: _____ Date: _____

First Semester Enrolled in Program: _____

Brief Description of the Proposed Project:

Candidacy Examination Committee Members:

Please list your potential advisor and three members of the Geology graduate faculty who hold the appropriate graduate faculty rank to serve on your committee. The graduate coordinator serves as the advisor of record until the dissertation proposal defense is completed successfully.

Faculty member	Responsibility	Area of Study	Signature
	Major Advisor		
	Minor Advisor		
	General Geology	General Geology	

Proposed Program of Study (Listed on page 2 and additional pages as needed)

Please list the classes you intend to complete as partial requirements toward completion of the Ph.D. in Applied Geology, indicating which courses are relevant to the major and minor areas of research. Please note that a minimum of 90 graduate hours beyond the B.S. degree or 60 graduate hours beyond the M.S. degree are required. A minimum of 30 hours of Dissertation I are required. Students must document that they have fulfilled the additional breath requirement.

To maintain full-time status, graduate students must enroll in 8 or more hours of graduate course work per term until the completion of their dissertation proposal defense. After passing the dissertation proposal defense, students must continuously enroll in Dissertation I or II hours, including one summer term each year, until the completion of their degree. Additional program requirements are listed on the departmental website and in the university graduate catalog.
